FACILITY OVERVIEW

The U.S. Immigration and Customs Enforcement (ICE) Office of Professional Responsibility (OPR) Office of Detention Oversight (ODO) conducted a follow-up compliance inspection of the Monroe County Detention – Dorm (MCDD) in Monroe, Michigan, from September 10 to 12, 2024.¹ This inspection focused on the standards found deficient during ODO’s last inspection of MCDD from March 12 to 14, 2024. The facility opened in 2000 and is owned and operated by the Monroe County Sheriff’s Office. The ICE Office of Enforcement and Removal Operations (ERO) began housing detainees at MCDD in 2000 under the oversight of ERO’s Field Office Director in Detroit (ERO Detroit). The facility operates under the National Detention Standards (NDS) 2019.

[REDACTED]. A jail administrator handles daily facility operations and manages [REDACTED] support personnel. Continental Café, LLC, provides food services, VitalCore Health Strategies provides medical care, and Keefe Group provides commissary services at the facility. The facility does not hold any accreditations from any outside entities.

Capacity and Population Statistics	Quantity
ICE Bed Capacity ²	[REDACTED]
Average ICE Population ³	[REDACTED]
Adult Male Population (as of September 10, 2024)	[REDACTED]
Adult Female Population (as of September 10, 2024)	[REDACTED]

During its last rated inspection, in Fiscal Year (FY) 2024, ODO found 3 deficiencies in the following areas: Admission and Release (1) and Funds and Personal Property (2).

¹ This facility holds male detainees with low, medium-low, and high security classification levels for periods greater than 72 hours.

² Data Source: ERO Custody Management Division Authorized Facility List as of September 3, 2024.

³ *Ibid.*

FOLLOW-UP COMPLIANCE INSPECTION PROCESS

ODO conducts biannual oversight inspections of ICE detention facilities with an average daily population (ADP) of 10 or more detainees, and where detainees are housed for longer than 72-hours, to assess compliance with ICE National Detention Standards. In FY 2021, to meet congressional requirements, ODO began conducting follow-up inspections at all over-72-hour ICE detention facilities with an ADP of 10 or more detainees that ODO conducted a full inspection of earlier in the FY. Follow-up inspections focus on facility compliance with detention standards that directly affect detainee life, health, safety, and/or well-being, and other standards ODO found deficient during the previous rated inspection in order to assess the facility's corrective actions taken to address those previously cited deficiencies.⁴

ODO identifies violations of ICE detention standards, ICE policies, or operational procedures, as "deficiencies." ODO highlights instances when the facility resolves deficiencies prior to completion of the ODO inspection. Where applicable, these corrective actions are annotated with "C" under the *Compliance Inspection Findings* section of this report.

While follow-up inspections are intended to focus on previously identified deficiencies, ODO will conduct a complete review of several core standards, which include but are not limited to Medical Care, Hunger Strikes, Suicide Prevention, Food Service, Environmental Health and Safety, Emergency Plans, Use of Force and Restraints/Use of Physical Control Measures and Restraints, Admission and Release, Classification, and Funds and Personal Property. ODO may decide to conduct a second full inspection of a facility in the same FY based on additional information obtained prior to ODO's arrival on-site. Factors ODO will consider when deciding to conduct a second full inspection will include the total number of deficiencies cited during the first inspection, the number of deficient standards found during the first inspection, the completion status of the first inspection's uniform corrective action plan (UCAP), and other information ODO obtains from internal and external sources ahead of the follow-up compliance inspection. Conditions found during the inspection may also lead ODO to assess new areas and identify new deficiencies or areas of concern should facility practices run contrary to ICE standards. Any areas found non-compliant during both the full and follow-up inspection are annotated as "Repeat Deficiencies" in this report.

⁴ ODO reviews the facility's compliance with selected standards in their entirety.

FINDINGS BY NATIONAL DETENTION STANDARDS 2019 MAJOR CATEGORIES

NDS 2019 Standards Inspected ^{5,6}	Deficiencies

⁵ For greater detail on ODO's findings, see the *Follow-up Compliance Inspection Findings* section of this report.

⁶ Beginning in FY 2024, ODO instituted a process of rotating all standards every other year. As a result, some standards may not be present in all inspections.

DETAINEE RELATIONS

ODO interviewed 30 detainees, who each voluntarily agreed to participate. None of the detainees made allegations of discrimination, mistreatment, or abuse. All 30 detainees reported satisfaction with facility services.

FOLLOW-UP COMPLIANCE INSPECTION FINDINGS

ODO had no findings during the inspection.

CONCLUSION

During this inspection, ODO assessed the facility's compliance with 16 standards under NDS 2019 and found the facility in compliance with all 16 standards. Since MCDD's last full inspection in March 2024, the facility's compliance with the NDS 2019 has trended upward. MCDD went from 2 deficient standards and 3 deficiencies to no deficient standards and no deficiencies during this most recent inspection. MCDD completed its UCAP for its last inspection in October 2024, which likely resolved the deficiencies ODO previously cited. ODO recommends ERO Detroit continue to work with the facility to ensure the facility maintains its high-level of compliance with NDS 2019.

Compliance Inspection Results Compared	FY 2024 Full Inspection (NDS 2019)	FY 2024 Follow-Up Inspection (NDS 2019)
